Dr. Mortazavi & P.A. Zimmerman,

I'd like to present you, and your entire staff with this hand-made glass art as a token of my appreciation for all you guys have done for me over the past couple years in trying to get me back to my normal life before all of my back issues. Your clinic really has given me the hope needed to get me through on a daily basis, and I'm still confident that one day I'll be 100% again, and will be able to enjoy the quality of life everyone deserves!

If you guys ever need anything like this gift, or anything else that may be relevant to your office (plaques, name plates, acrylics, glass, trophies, medals, etc..), please don't hesitate to contact me. I'm sure I'd be able to prove my ability to compete with any local/online vendor, as I am constantly striving to exceed expectations with the quality of my service and products, as well as the all-important price point!

Thank you again so much for supporting me in my quest to return to a normal life. Here's to a healthy future!!

Rob
