Valley Pain Specialists Opens New Office With Ambulatory Surgery Center

Dr. Mortazavi and the friendly staff at Valley Pain Specialists are pleased to announce the opening of their new office this July. The office will be located at 4250 Fritch Dr., Bethlehem, PA 18020. We will feature additional exam rooms as well as two Class B operating rooms. The facility will be licensed as an Ambulatory Surgical Center by the State of PA (Valley Surgical Center, Inc.). Nearly all interventional pain management procedures will be performed in the facility including:

- Epidural steroid injections
- Facet joint injections/denervations
- Sacroiliac joint injections
- Sympathetic blocks (upper/lower extremity)
- Joint/bursa injections (knee, hip)
- Intercostal nerve blocks
- Spinal cord stimulation
- Intrathecal pump implantation for pain/spasticity
- Peripheral nerve blocks (E.g. Occipital nerve blocks)
- Celiac plexus blocks (pancreatic cancer)
- Percutaneous discectomy (herniated discs)
- Percutaneous vertebroplasty (compression fractures)

In addition, medication management can be provided by office staff as well as referral for physiotherapy, acupuncture, biofeedback and chiropractic evaluation if appropriate.

Directions: Rte 22 to Rte 191(Linden St.). Exit north; proceed to first traffic light approx .1 mile (Broadhead Rd). Make left at Broadhead Rd; proceed up hill .1 mile. Make first right onto Fritch Dr. Proceed to end of Fritch (.2 mile, office on right).
